

The 2015 RECURDYN Technology Workshop

When: Thursday, June 4st: Information exchange through presentations

Friday, June 5nd: Training

Where: Webster, New York (fly into Rochester, NY)

What: Hear the latest about RecurDyn and learn how engineers are taking advantage of RecurDyn capabilities. Also test-drive MBD for ANSYS!

Registration: Fill out the form below and email a scanned copy to rd_techworkshop@motionport.com or mail a printed copy to the address shown at the bottom of the form. Note that there is no cost for RecurDyn Customers who register by April 15.

Participation: Each attendee is asked to present a 10-minute summary of the usage of RecurDyn and the enhancements that they are interested in.

Sponsored by: 	Venue: The 2015 RecurDyn Workshop will be held at the Xerox Corporate Campus. On the second day of the workshop we will have an hour with Ray Brewer, Curator of the Xerox Historical Archives, who will do a hands-on demonstration of xerography using a 1950 Standard Equipment Model D System. You will have the opportunity to try it yourself if you like!
Generously hosted by:
